

# Welcome, AmeriFlux!

Margaret Torn  
AmeriFlux Management Project  
October 24, 2018

# Growing...

Adding ~ 35 sites/year

- More wetlands
- More Latin American sites

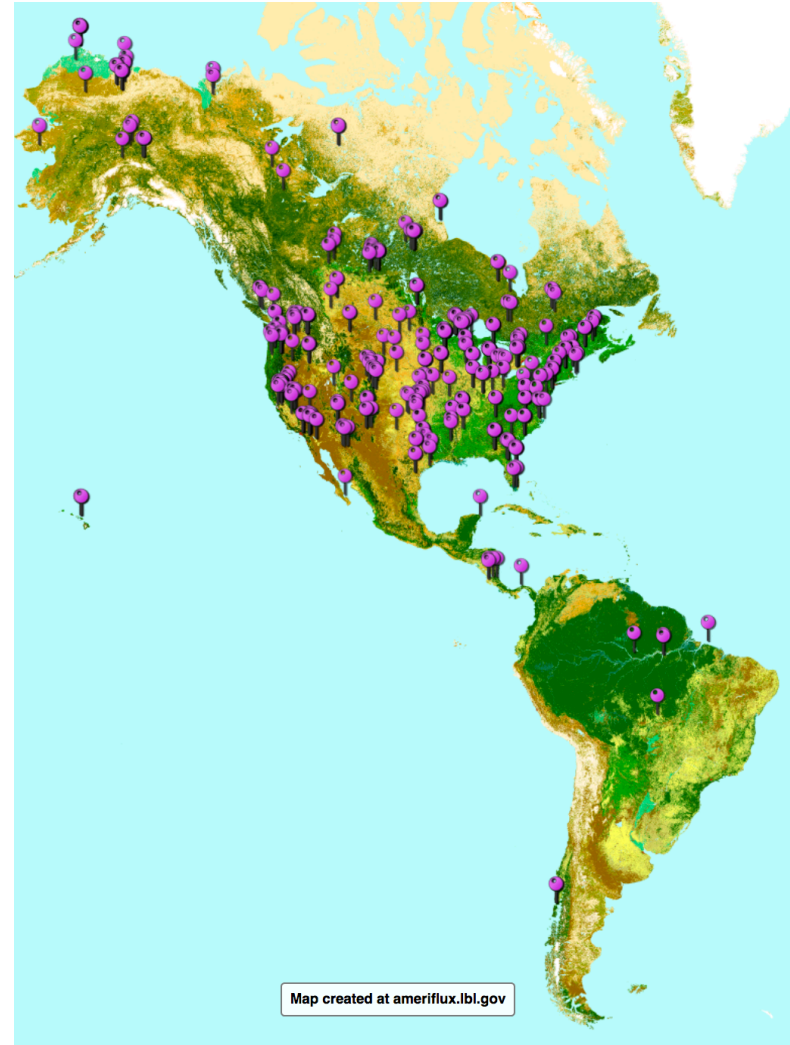

New AMF members: 1591

Since 2015:

Sites w/data downloaded: 226

Unique users: 1,875

Unique downloads: 10,000

# Growing...pains?

1:45 – 3 pm tomorrow

AmeriFlux Network session

Your news and views

Issues for the network

Priorities for AMP

# Growing...pains?

**What would be ideal level of engagement with data users?**

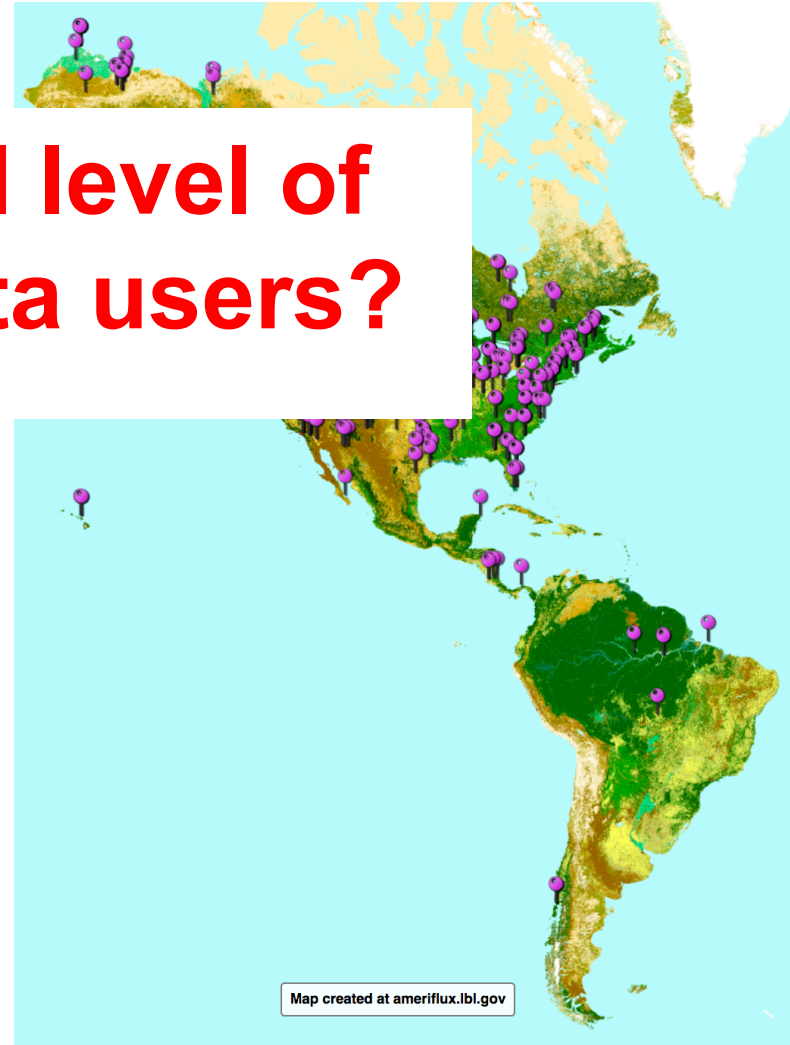

New AMF members: 1591

Since 2015:

Sites w/data downloaded: 226

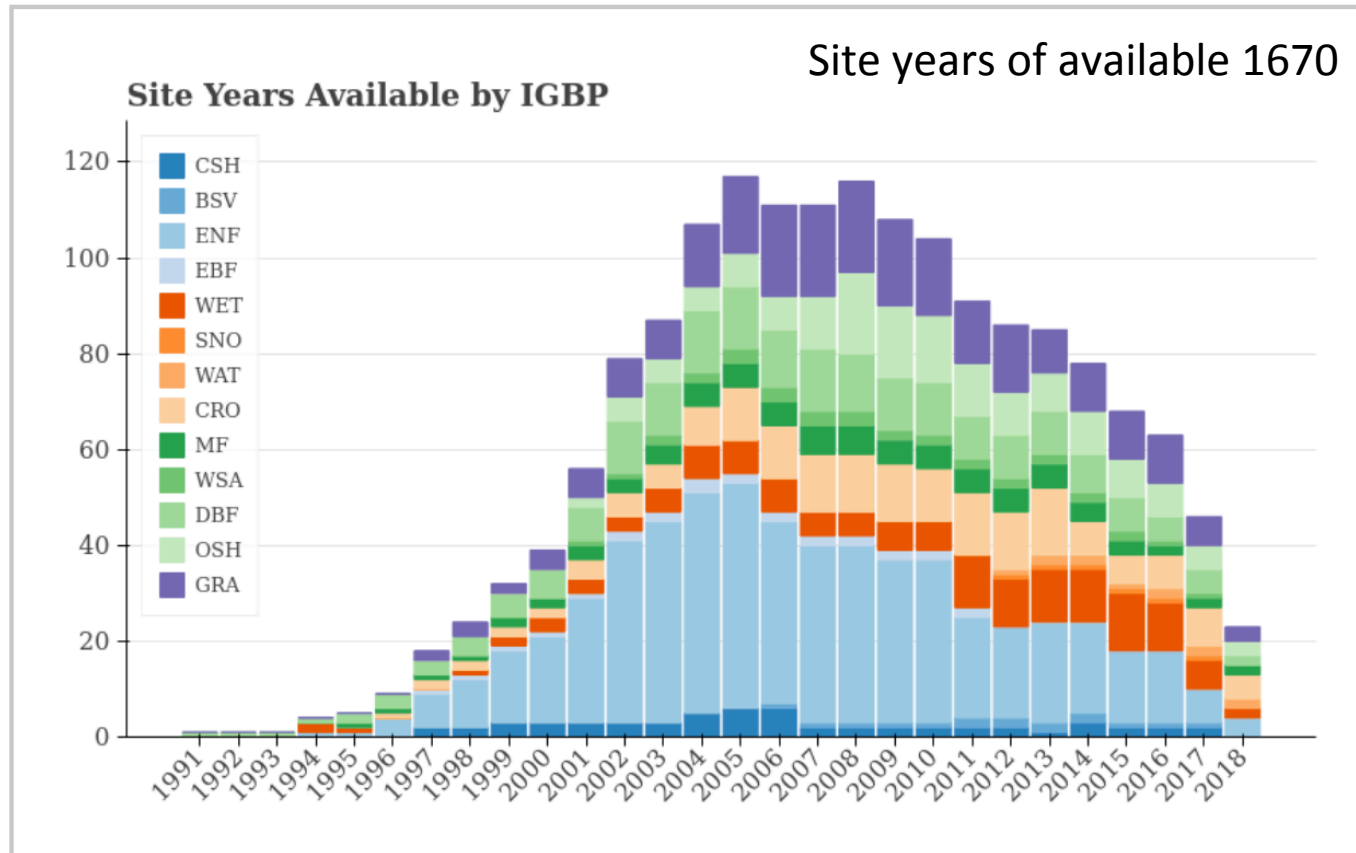

Unique users: 1,875

Unique downloads: 10,000

# BASE data pipeline is humming

**How to handle old (CDIAC) data that don't pass QA/QC? Or tThat don't have active PI?**

# ONEFLUX PROCESSING PIPELINE: OPEN SOURCE COLLABORATIVE CODE

# Community Events

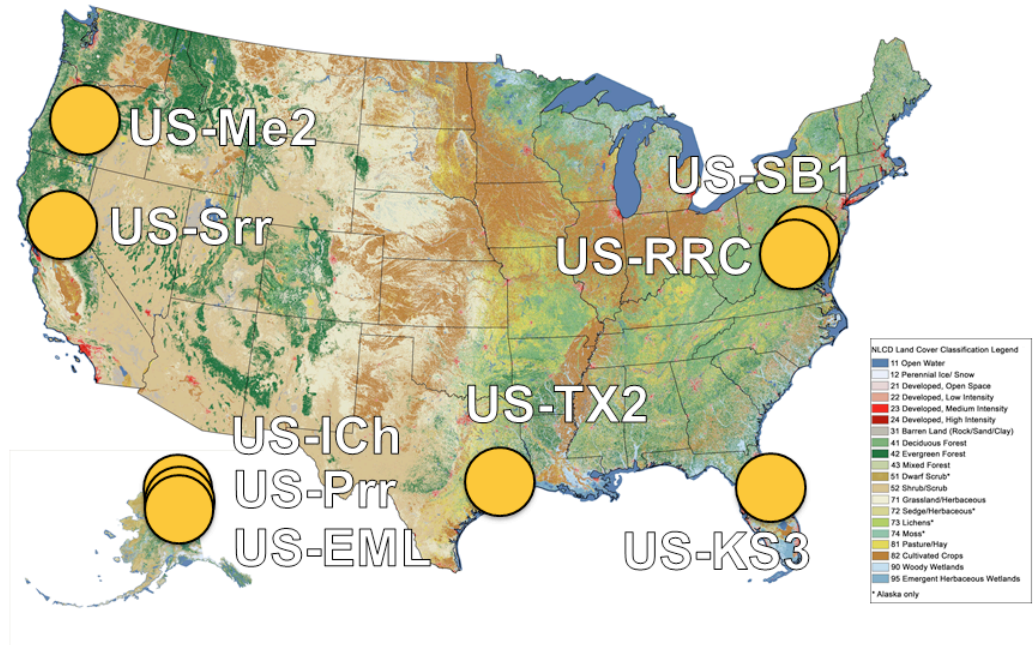

There was a Decadal  
Synthesis Workshop in August 2018

*We'll have more flexibility in future years.*

**What are meeting priorities  
for 2019 - 2020?**

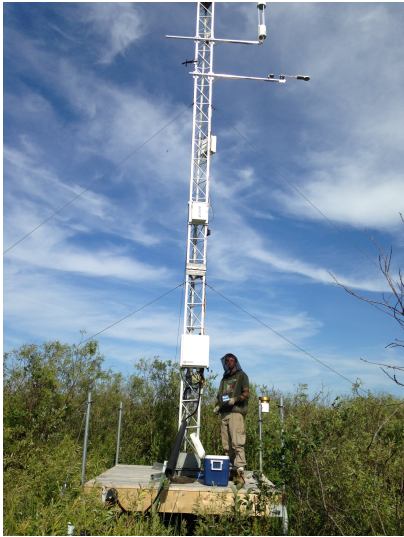

# Tech Team Site Visits

**How can this be scaled to cover more of the network?**

# Our first theme for network action: Year of Methane Fluxes

Connor Klosterman  
US-Los, Wisconsin

Berkeley BiometLab  
US-Myb, California,

Promote community  
and collaboration

Provide tech resources

Support data  
processing and sharing

Increase visibility and  
viability

## What are you doing with methane fluxes?

**AmeriFlux is a great community!**

**Bring your ideas  
to the session tomorrow.**
